

TRUSTED LEADERSHIP

**I'll work for the things
that matter
most to MB residents**

I'm for

- Increasing police presence in Downtown MB and the North End
- Creating a task force to rebuild the relationship between City and firefighters
- Providing prompt city response regarding safety concerns for unhoused people
- Building quality facilities for residents including the new Senior & Scout Community Center and a new Begg pool
- Protecting Manhattan Beach from the impacts of climate change
- Continuing outdoor dining while addressing safety, parking, and trash issues
- Partnering with the school district, police, parents and young people for enforcement of safe e-bike solutions
- Lobbying legislators proactively for local control of our zoning

I'm against

- Wasting your tax dollars
- Allowing retail pot shops
- Interfering with the independence of the publicly elected School Board
- Banning access to books

**I will work
tirelessly to
bring back a
city council
that represents
all of us.**
